ITSE 2309 – Introduction to Database

Lab 11 Assignment

Name your file *last_name_Lab11.sql* Example: Page_Lab11.sql

Include your name, course, and section in your sql file. Also, number each of the questions in your sql file.

Create each SQL statement in all three dialects.

1. Create the table EMP with the following fields:
    EMPNO   4 digits   Primary Key
    ENAME   18 characters   Not Null
    JOB   12 characters
    MGR   4 Characters
    HIREDATE   Date
    SAL   5 DIGITES no decimal NOT NULL
    COMM   5 characters
    DEPTNO   2 Digits   NOT NULL

2. Create the table DEPT with the following fields:
    DEPTNO   2 DIGITS   NOT NULL
    ENAME   18 Characters
    LOC   13 Characters

3. Create the table SALGRADE with the following fields:
    GRADE   2 Digits
    LOSAL   5 Digits
    HISAL   5 Digits

Upload the single .sql file to Moodle for your assignment submission.
